Dear Richard

With reference to our objections to the proposed development (planning application 10/00018/FUL) please find attached photographs taken this weekend during an afternoon function at Sherington Village Hall, to illustrate the car parking situation.

The existing capacity of the village hall car park was exceeded as shown by the cars parked on the wide pavement in front of the village hall, also on the road and on the grass beyond the gravelled area adjacent to the Playschool play area that extends from the back of the hall.

The grey car parked on the side of the road opposite to the village hall is across the drives of numbers 17 and 19 Church Road opposite to the proposed entrance to the new development. The white minibus is parked on the drive of 19 Church Road.

Yours sincerely

Joy and Roger Hardy
